BOGDAN AKSENOV

FULL-STACK WEB DEVELOPER

ABOUT ME

Hello! I'm a full-stack web developer with a wealth of experience in both the financial and technical aspects of cryptocurrency technologies. I have successfully built several MVP startups from the ground up and have expertise spanning across the development of both backend and frontend components, including API integration with external services.

I have also delved into the creation of crypto-crypto and fiat-crypto aggregators, as well as decentralized exchanges (DEX). I completed a course on developing smart contracts using the Solidity language at Crypton Studio. As a developer, I am constantly seeking new challenges and opportunities to push my skills to the next level. I am particularly intrigued by the world of Web3 and building decentralized applications (dApps).

EXPERIENCE

Full-stack Web Developer
NDA 01.2022— 12.2022

- Developed and implemented a microfrontend architecture for a large-scale web application, resulting in improved scalability and maintainability. This approach has led to a reduction in technical debt and increased developer productivity, allowing the team to create new features faster
- I was engaged in the development of a decentralized exchange (DEX). In two months, he wrote, tested, and launched the server and front-end parts.
- Collaborated with cross-functional teams to ensure seamless integration with existing systems and a consistent user experience

Full-stack Web Developer
Evercode Lab 10.2019— 01.2022

- Development and support of internal products in the field of fintech
- Integration with external APIs, creation of aggregators of different platforms
- Development of fully finished MVP products, front-end and back-end part
- Developed and maintained a variety of internal tools, such as a monitoring and analytics platform to track performance and usage
- Collaborated with designers and product managers to understand user needs and create intuitive, user-centric interfaces
- Acted as a mentor and guide to junior team members, fostering a culture of continuous learning and growth within the organization
